

RIZWANA NAZNIN C A

Full-Stack Developer · Python & Django · React & TypeScript · AI Engineer · DevOps
+91 8113003356 · rizwananazninca@gmail.com · Ernakulam, Kerala · Immediate Joiner
Portfolio: sparkling-portfolio.vercel.app · GitHub: github.com/Rizwana-15112004

ABOUT ME

BCA Graduate 2026 (MG University, Kerala) — I don't just study code, I ship it. Delivered a real Django application to a paying client as sole developer. Built and deployed 5 production apps using React, TypeScript, Python, Django, Docker, Vertex AI Gemini API, WebSockets, and PostgreSQL. Zero backlogs. AI-ready. Available from day one for on-site, hybrid, or remote roles.

TECH STACK

Frontend › React.js · React Native · TypeScript · JavaScript · Tailwind CSS · Shadcn UI · HTML5 · CSS3 · Vite
Backend › Python · Django · Django REST Framework · Node.js · PHP · REST API · WebSockets · MVT Architecture
AI & ML › Google Vertex AI Gemini API · Agentic AI · Lovable AI · Prompt Engineering · LLM Integration · Generative AI
DevOps › Docker (Dockerfile, Image Builds) · Vercel CI/CD · Git · GitHub · Ubuntu Linux · Bash · GitHub Actions
Database › PostgreSQL · MySQL · Supabase · Django ORM · Schema Design · Query Optimization · Real-Time Pipelines

EXPERIENCE

Freelance Django Developer — BloodLife: Donate Blood, Save Lives 2024 · Remote
Client-commissioned full-stack Django app · github.com/Rizwana-15112004/blood-connect-pro
‣ **Sole developer** on a paying client project — delivered Django MVT backend, ORM models, MySQL schema, donor registration, blood group filtering, and location search from requirements to production.
‣ **Authored full technical documentation** of architecture, API structure, and deployment steps — enabling any developer to maintain independently.

PROJECTS

SDRRS — Smart Disaster Response & Rescue System 2024–2025
React · TypeScript · Python · PostgreSQL · Supabase · WebSockets · IoT · BLE · Vercel CI/CD
‣ **Architected dual-mode real-time platform** — REST + WebSocket pipeline syncing IoT sensor data to cloud DB with sub-second latency, BLE geolocation, and triage logic.
‣ **Shipped Vercel CI/CD pipeline** + offline failover guaranteeing 100% uptime during network/power failure.

RealtySocial AI — AI Property Classifier 2024
Python · Vertex AI Gemini API · Agentic AI · React · Vercel
‣ **Integrated Vertex AI Gemini API** into live Python backend — Agentic AI pipeline eliminated 100% manual tagging, deployed end-to-end on Vercel.

Docker Containerization Project · Design to Delight (React Assignment) 2025
Docker · Python · Django · React · TypeScript · Tailwind · Vercel · github.com/Rizwana-15112004/design-to-delight
‣ **Containerised Python/Django app** with Docker (Dockerfile, image builds, port mapping) + delivered real React internship assignment end-to-end — design spec to live deployed Vercel app.

EDUCATION

Bachelor of Computer Applications (BCA) — MG University, Kerala 2023–2026 · Passing Year: 2026
‣ Zero backlogs across all semesters · Specialization: Full-Stack & AI-Integrated Development · Final Year Project: SDRRS

CERTIFICATIONS

‣ Generative AI with Vertex AI Gemini API — Google Workshop · Hands-on AI model integration & Python scripting
‣ HP LIFE: Customer Experience for Business Success · WordPress Website Creation (Certified) · NSS Volunteer
